CEDA Turns Their Donation Around

CEDA International Corporation has increased their donation to the Syncrude Sport & Wellness Centre at Keyano College to \$125,000. Funding will be allocated to the Varsity Team Rooms in the Centre, allowing the Keyano Husky Athletes access to state-of-the-art team change rooms for their practices and competitions in soccer, badminton, volleyball and basketball.

CEDA International Corporation is a leading provider of specialized industrial maintenance and "turn-around" services to oil refineries, petrochemical plants, utility plants and pulp and paper operations in North America. CEDA offers many services including water blasting and vacuum truck services, chemical cleaning, catalyst handling, environmental services, turnaround services and emergency response services. CEDA continues to provide the types of industrial and environmental services no longer done in-house by many processing companies.

The CEDA International Corporation group of companies includes: CEDA-REACTOR LTD., CEDA Inc., REPPSCO SERVICES LTD., Catalyst Services Ltd., Catalyst Services Inc., Lasso Maintenance, CASCA Electric, and CASCA Tech., and, as of April 2006, they acquired all assets of L. Robert Enterprises Ltd. CEDA International was so impressed by the L. Robert Enterprises support for the Syncrude Sport & Wellness Centre at Keyano College that they increased the original donation of \$50,000 to \$125,000 to support healthy lifestyles for their employee and family base in our community.

"CEDA holds certain beliefs about health and safety, and embracing these beliefs within the community in which we live and work helps us to sustain a healthy culture for our employees which is an integral component of our overall management philosophy and management structure," said Roger Hearn, President, CEDA International Corporation. "The Syncrude Sport & Wellness Centre at Keyano College will enhance

the health and wellbeing of our employees and the community, and we are very pleased to have the opportunity to contribute towards its construction."

"CEDA has a history of providing support for the community and Keyano College. We are honoured that CEDA has invested in a project that aligns with their company philosophy while also assisting the community and supporting Keyano's ability to provide education, training and services in the region," said Jim Foote, President, Keyano College. "Their support enables the construction of the Syncrude Sport & Wellness Centre which will enhance the quality of life in our region for many years to come."

The Syncrude Sport & Wellness Centre is designed to meet the recreational and athletic training needs of residents and students throughout Northeastern Alberta. The Centre will enhance the community's recreation facilities and ensure the region stays competitive with other areas of the province.

CEDA INTERNATIONAL CORPORATION

- CEDA International Corporation is a diversified, growth-oriented business. We take pride in providing safe, quality products and services to the energy and natural resources industry.
- CEDA holds certain beliefs about Health and Safety. Embracing these beliefs in our daily work lives assists the Corporation in sustaining a culture where Health, Safety and Environmental management is an integrated component of our overall management philosophy and management structure.
- Established in 1973, CEDA-REACTOR LTD. is a 24/7/365 service company that utilizes state of the art technology to complete all of your industrial and mechanical cleaning requirements.
- Established in 1973, Catalyst Services specializes in industrial vacuuming, IDLH vessel entry, specialty loading capabilities & hazardous materials handling.
- Established in 1983, REPPSCO SERVICES LTD. areas of expertise are turnkey shutdowns, industrial plant maintenance & construction services.
- Established in 1977, CASCA is a diversified company specializing in electrical maintenance, construction, power system testing & commissioning services.
- Established in 1980, L. Robert Enterprises specializes in welding & fabricating the largest machinery the oilsands industry has to offer, heavy equipment repairs, rentals & parts sales.
- Established in 1992, Lasso specializes in fireproofing & sandblasting, industrial coatings on floors, tanks, pipelines and plural component application systems.

Company Milestones

- In 2006, the CEDA group of companies reached 5.2 million man-hours without a lost time injury.
- On January 31, 2007, CEDA acquired all of the shares of Brig-Chem Industries Ltd.
- On August 31, 2006, CEDA acquired all of the assets of LASSO Maintenance Ltd.
- In April 2006: "CEDA International donates \$100,000.00 to Northern Lights Regional Health Foundations MRI Campaign. All of the CEDA International Group of Companies, CEDA-REACTOR LTD., REPPSCO SERVICES LTD., Catalyst Services and CASCA Electric, have a strong and genuine commitment to health and safety, both on and off the job. As such, it is our hope that the purchase of a MRI will assist the community that we are so proud to be a part of."
- On April 30, 2006, CEDA acquired all of the assets of L. Robert Enterprises Ltd. and L. Robert Equipment Ltd., collectively the "L. Robert business".
- September 13th, 2005, Precision Drilling successfully completed the sale of 100% of the shares of CEDA Holdings Ltd. and all its subsidiaries to Ontario Municipal Employees Retirement System (OMERS). As a leading industrial, mechanical and electrical services company well established in the expanding Alberta oil sands, CEDA represents an excellent investment opportunity," said Paul Haggis, President & CEO of OMERS. "We believe CEDA has growth potential and is the type of long-term investment that we need to meet the future pension obligations of our members."
- On July 31, 2005, CEDA closed the transaction to purchase CASCA Electric Ltd. and CASCA Tech Inc.

Syncrude Sport & Wellness Centre Enhancing Recreation Facilities for the People of Wood Buffalo

The Syncrude Sport and Wellness Centre will be a college and community-use complex that offers our residents state-of-the-art recreation and training facilities. The \$36 million facility will include a field house, a running track, and fitness/wellness facilities and will be constructed on the Keyano College Clearwater Campus. The field house incorporates a gymnasium and surfaces for sports such as indoor soccer, lacrosse, tennis, basketball, volleyball, and seating for 1500 to host major regional and national events. A running track, located on the second floor of the field house, provides recreational leisure running, competitive running, and sprinting opportunities. A much needed fitness/wellness facility including a weight room, aerobic facilities, performance testing, fitness classes and club rentals are also part of the proposed plan. Construction begun last spring on the Syncrude Sport & Wellness Centre at Keyano College and we are on target to open the centre to the public in the summer of 2007.

It is important to note that the use of the Sport and Wellness Centre will be shared between College users and the community at large. It is estimated that 66% (two thirds) of the facility utilization will be community use.

The Sport and Wellness Campaign officially kicked off on April 6, 2004 when the Alberta government confirmed it would provide \$18.4 million in capital funding for the Sport and Wellness Centre. In addition, Keyano was also pleased to receive confirmation in April 2005 when The Regional Municipality of Wood Buffalo agreed to fund \$1 million of the construction costs. The Provincial government has confirmed a further \$15 million contribution to the project. A further \$4.0 million was raised through individuals, corporate and community donors.

CEDA International Corporation is proud to support projects such as the Keyano College Sport & Wellness Campaign that contribute to the long-term well-being of citizens within the Regional Municipality of Wood Buffalo.
